# LES PEINTRES NOMADES

## The Wandering

### ETHNIC CURIOSITY !!!?

Is it a folk dance or the Seminar of a new tribe ? Bolivia, Morocco, Papua, India or Mongolia ?!

Each will find his own journey there...

The Nomads Painters, colourful characters, roam among the crowd.

On their hips, rock the colors of the world ...

2, 3, 4, 6, 8 !... The more they are, the more the visual effect enchants!

We can consider them coming from so many places of the world with their costumes of red camaïeux, their mixture of materials, laces, little bells and “grigris” collected according to the encounters during their multiple journeys.

Watch at them passing, it 's surprising very soft , just as a small fresh or hot breeze (according to the season) which comfort eyes and mind.

Then in the bend of a street, they cross your look !!!  
 ... They are certainly going to unsheathe their brushes !!!  
 And it is you that one of her chose!  
 It falls badly you had a great important appointment !!! That's fine ! they adore the challenges...  
 In a lively and skillful gesture, they put a note or 2...  
 Just what is needed.  
 There are those after whom they run and those who run after them ...  
 But o marvel! Their red parasols give their crossing points and indicate to all the place of a meeting place...

... Unusual, intimist, fleeting encounter... Moving meeting of the tip of a brush. ...

You forgot your necklace !  
 Quick... A Nomad Painter !  
 A swarm of jewels hang on to her brushes...  
 Here is this only for you, Madam, unpublished, incomparable, matched with your dress, and spangled as one pleases !  
 ... And for you, Sir ?  
 You will be a member of the journey with a tattoo come from east or a stalk of color on your already beautiful mustache !  
 And it is all the family which advances and desires its jewel !

Original works which will make of You Beautifiers of Streets!
